18 January 1957

Dear George:

The enclosed proposal covers the development and fabrication work on System 5 and four (4) special transistorized amplifiers, associated power supplies, and antenna tuning motors required by Jim S. in connection with the System 5 program.

Exhibit A is a brief description of System 5. As you know the system was delivered December 6, 1956. The other items of equipment were delivered to Jim at the end of October except the special power supplies we built were ultimately not used and regular System 1 power supplies replaced them.

The estimated cost of this work is [] the fixed fee at [] and the total cost including fee is []
